

**FOR IMMEDIATE RELEASE****Montreal, Quebec, Canada – June 16, 2008****Supratek Pharma appoints Dr. Alexander V. Kabanov to Board of Directors**

Supratek Pharma Inc. is pleased to announce the appointment of Dr. Alexander V. Kabanov to its Board of Directors.

Alexander Kabanov, Dr.Sc., Ph.D., is a leading scientist in the research and application of polymer chemistry to pharmaceuticals. He holds a number of prestigious positions including Professor, Department of Genetics, Cell Biology and Anatomy; Director, Center for Drug Delivery and Nanomedicine as well as Parke-Davis Chair in Pharmaceuticals, Department of Pharmaceutical Sciences, College of Pharmacy, University of Nebraska Medical Center, Omaha. He is the author of several books and of a large number of articles in major scientific publications. He is consultant to industry and has 23 US patents to his name. He is also a co-founder of three biotechnology companies.

Mr. Oleg Romar, Supratek's Chairman, President & CEO states, "I am delighted with this appointment. Dr. Kabanov brings extensive knowledge, innovation and experience in research and development of the field of nanomedicines and application of block copolymer chemistry solutions to drug development. His vast international network of leading scientists in strategic planning, general management, marketing, sales and product management will assist Supratek to optimize global strategy and ongoing alliance activities for our product portfolio and platform technologies."

**About Supratek Pharma Inc.**

Supratek Pharma is a pharmaceutical company focused on the treatment of drug resistant and metastatic cancers. Late-stage metastatic cancers account for the majority of cancer deaths and represent one of the major unmet medical needs world-wide. The company has seven wholly-owned proprietary products in its pipeline. Three of its product candidates are entering pivotal studies leading to New Drug Applications.
